General Rating Tips

Rate surface distress, not ride quality. Be aware of cracks in the wheel path; they can be hard to see and do not affect the ride

Disregard the shoulder. Rate only the driveable pavement, edge line to edge

Do not ignore reflective cracks. Rate by assessing the type of crack (e.g. transverse, longitudinal, alligator).

Rate the current surface condition. If construction is in progress (i.e., work is active) but you are driving on the old surface, rate the new surface. Some barrels by the roadside is not construction in progress

Rate the lane with the worst condition when lanes have differing conditions. For variable surface types, rate the worst lane and select it as the Surface Subtype.

Rate what you see, not what distresses you think might happen in the future.

Rate roads with the same scrutiny regardless of their use, ownership, or functional class

Rutting often has visual cues like plow scars. Get out and measure using a straight edge and tape measure. Use caution! Rutting measurement changes are detailed in the TAMC Data Collection Training Manual's "Michigan-specific Asphalt Road Rating Guide" section, page 7.

Composite Pavement consists of a concrete pavement overlaid with asphalt; rate it based on the uppermost surface (e.g. asphalt); and note the Surface Subtype as composite. A repaired concrete pavement's highest rating is a 9. While it may have had concrete joint repairs, no other defects can be present and the condition is "like new". Note, this is not likely to occur

Sealcoat pavements are sealcoat over gravel whereas sealcoat treatment is sealcoat applied over asphalt. See pages 6-7 of the TAMC Data Collection Manual for rating sealcoat pavements. *With proactive sealcoat treatments, do not downgrade an asphalt PASER 9 or 10 (no defects) to an asphalt PASER 8 because of the treatment. Rate it based on the distresses that are visible (see TAMC Data Collection Training Manual's "Proactive Sealcoat Treatments on Asphalt PASER 9" section,

Pursuant to an Interlocal Agreement between the City of Garden City, Kansas, a municipal corporation, and the Board of County Commissioners of Finney County, Kansas, dated the 15th day of July 2017, this board/committee was established and was charged by the governmental entities to:

"... periodically review sales tax receipts and to ensure distributions and expenses have been used and paid in accordance with the sales tax issue approved by the electorate on November 7, 2017. The Board will annually present their findings to the governing bodies of..." the City and the County. (See interlocal agreement, Paragraph 8 (b)(iii) "Purpose."

HISTORY OF MEETINGS.

The Board met for an organization meeting with a financial review on February 6th, May 1st, August 7th, and November 6th, 2023.

The Board met on February 5, 2024, and received updated information from staff regarding receipts and disbursements in 2023. The annual receipts are coming in higher than projected. The zoo projects have been completed. Construction on Jennie Barker Road is completed. The Gun Range project is complete and in full operation. The 3rd Fire Station construction plans have been completed, and construction is set to begin in the first quarter of 2024. The purchase of the Pumper and Aerial Ladder apparatus was completed in December 2023.

REPORT.

The Committee approved for the City to provide internal funding for sales tax projects. This secures adequate cash flow for construction. The interest rate for the fund is set at 0.5%. The City Commission approved a resolution to that effect on December 15, 2020. A second ordinance and resolution were approved by the City Commission on December 7, 2021, authorizing the issuance of temporary notes to allow for internal financing within the City, including payment for the sales tax projects, with repayment of the temporary notes being made from the .30 sales tax revenues.

The Board is proud to advise the City and County that accurate and reliable information has been provided by staff, and the Board has moved and approved receipts and disbursements for 2023. All sales tax revenue collected from the subject sales tax has been received and utilized as authorized by the electorate according to the election mandate approved on November 7, 2017. The actual financial reports are available from staff at your request. This Board is scheduled to meet (4) times in 2024 and will make its annual report to you following the board meeting to be set in February 2025. In addition to these

Sales Tax Oversight Board 2023 Annual Report February 5, 2024, Page 2

meetings, the board requests to be notified when the project bids are presented at City Commission meetings.

As of the date of this report, the following progress has been made regarding the preparation and construction of projects approved by the voters in 2017, as follows to with:

- a) Construction Project Jennie Barker Road: Construction began June 22, 2020, and the project is completed.
- b) Improvements at Lee Richardson Zoo: The projects at the zoo include improvements to the primate and flamingo exhibits and the zoo hospital. These have all been completed and occupied.
- c) Indoor Shooting Range: The project was completed in 2022 and is fully operational. The facility is in use by local law enforcement, and multiple trainings have already been conducted on the premises. There are also hours of operation when the facility is open to the public on Tuesdays, Thursdays, and Saturdays.
- d) 3rd Fire Station to be located on the City's east side: Architectural design work was completed in 2022. The expected costs for the project have increased substantially from what was initially expected and budgeted. The original request for bids returned zero bid results. City Staff worked with the Architect, and Crossland was selected as the Construction Manager at Risk. Crossland presented the guaranteed maximum price for the construction of the 3rd Fire Station in December 2023, which is \$13,709,460. The City Commission approved a cost estimate of \$947,000 for Fixtures, Furniture, and Equipment. Also approved was \$1,983,767.70 for the cost of an Aerial Ladder apparatus (Tower 3) and \$945,146.17 for a Pumper Apparatus (Engine 3). It is expected that additional apparatus, such as a Brush Truck and Tanker will be purchased further into the project's construction phase. The anticipated completion date will be in 2025.

RE: Planning & Development Consultant Agreement

ISSUE:

The Governing Body is asked to consider and approve the Planning & Development Consultant Agreement between the City of Garden City and Finney County.

BACKGROUND:

The City of Garden City and Finney County have been in an interlocal partnership for the consolidated provision of Planning, Zoning, Inspection, and Code Enforcement services since 1994. In June of 2022, County Commissioner Chair Pishny and County Administrator Reece expressed to City staff a desire to revisit the terms of the agreement, and discussions about perceived areas of improvement and development processes commenced.

Beginning in November of 2022, those discussions started to more narrowly focus on process improvements and changes to the existing Neighborhood & Development Services Interlocal Agreement that was last updated in 2015.

The full timeline of meetings, including Board of County Commission meetings, City Commission meetings, and joint staff level negotiation meetings has been attached for reference.

At the June 30, 2023 meeting between City and County staffs, the group was interested in drafting an agreement reflecting the good faith negotiations and directed the City Attorney to draft a consultant-type relationship agreement for both Governing Bodies' consideration. This is the agreement before the City Commission for consideration today.

At a subsequent meeting on August 9, 2023, the City was informed in-person that the County was not interested in proceeding with discussions about the drafted agreement reflecting the product of previous negotiations and instead needed more information regarding the development process that the City uses. City staff provided this information in memo form in mid-September (also attached).

City and County staff, plus representation from the Board of County Commissioners, were slated to meet in January about the future of the interlocal agreement currently in place. That meeting was cancelled and rescheduled for Wednesday, February 7.

Based on the discussions that have taken place over the last 20 months, City staff remains under the impression that the approach reflected in the attached draft agreement represents the

expressed interest of the City and County Commissions, as well as the product of good faith negotiations between the staffs. However, the review and consideration of a revised agreement reflecting an interlocal partnership for Planning, Zoning, Inspections, and Code Enforcement Services has now straddled an election cycle and the seating of new City elected officials. Prior to further discussions with County representatives outside of public joint meetings, staff requests the Governing Body articulate its intent and preferences. City staff believes the most clear way to do so is to consider the attached draft agreement prepared by the City Attorney's Office at the request of both City and County staff last summer.

If you do approve the agreement, it would then be sent to Finney County for consideration by the Board of County Commissioners. At that point, the agreement could be approved, rejected, or sent back to the City with requests for modification that the City Commission could consider at a future meeting.

ALTERNATIVES:

- 1. The Governing Body may approve the Planning & Development Consultant Agreement between the City of Garden City and Finney County.
- 2. The Governing Body may not approve the Planning & Development Consultant Agreement between the City of Garden City and Finney County, and direct staff to provide to the Finney County of the discontinuation of the existing agreement on December 31, 2024.
- 3. The Governing Body may not approve the Planning & Development Consultant Agreement between the City of Garden City and Finney County, and provide staff direction on how to proceed with future negotiations with Finney County.

RECOMMENDATION:

Staff recommends the Governing Body approve the Planning & Development Consultant Agreement between the City of Garden City and Finney County.

FISCAL NOTE:

The proposed agreement maintains the existing funding structure in place which would result in \$247,917.70 to the General Fund in 2024 and a 5% increase in each consecutive year.

Notwithstanding the foregoing, any provisions within the scope of Paragraph 19(i), <u>Survivability</u>, herein shall survive any termination pursuant to or referenced by this paragraph.
- 10. <u>PRO-RATA PAYMENT UPON TERMINATION.</u> Upon any termination pursuant to or referenced by Paragraph 9, <u>Termination</u>, herein, COUNTY shall only be responsible for the payment of Consulting Services rendered by CITY up to date of termination, which shall be calculated on a pro-rata daily basis, and COUNTY shall have no responsibility, duty, or obligation under this Agreement to pay any additional amount to CITY after the date of termination ("Pro-Rata Payment"). Upon any such Nonpayment, CITY may terminate this Agreement thereby terminating the rights and obligations between the Parties; provided, however, that any termination pursuant to this paragraph shall require CITY to give ten (10) days written notice to COUNTY of its intention to terminate due to Nonpayment, at the end of which time this Agreement shall be terminated, unless such default shall have been cured within such ten (10) days. Any such notice shall identify the amount of arrearage and the date on which the payment was originally due. This Agreement shall not limit in any manner the legal rights or remedies CITY may have in the event of such Nonpayment. Any waiver of Nonpayment by CITY shall not be deemed as a continuing waiver and shall not operate to prevent CITY from declaring a default for any succeeding breach, either of the same or other covenant. Should CITY be required to take any legal action to enforce the terms and conditions of this Agreement, whether through litigation or otherwise, COUNTY shall be responsible for all costs and expenses of CITY, including, but not limited to, reasonable attorney fees and court costs.

The provisions of this paragraph shall survive any termination or expiration of this Agreement.
- 17. <u>INDEMNIFICATION OF THIRD-PARTY CLAIMS.</u> COUNTY shall indemnify, hold harmless, and defend CITY and any of its elected officials, employees, officers, directors, agents, and contractors from and against any and all costs and expenses, including, but not limited to, reasonable attorney fees and court costs, and all other amounts which CITY, or any of its elected officials, employees, officers, directors, agents, or contractors, are or may become obligated to pay on account of any and all demands, claims, liabilities, or losses of a third-party directly arising, alleged to have arisen out of, been related to, or in any way connected with the acts or omissions, including, but not limited to, any negligent or wrongful acts or omissions, of CITY, or any of its elected officials, employees, officers, directors, agents, or contractors, in relation to the performance of Consulting Services or otherwise in relation to this Agreement, whether such demands, claims, liabilities, or losses are for damages to property or for injury, illness, harm, or death of any person. Shannon L. Dick Commissioner RE: Development Process

Manny Ortiz Commissioner

County Administrator Reece and team,

Troy R. Unruh Commissioner I appreciated you joining the meeting on August 9, 2023, to continue the ongoing discussions that both City and County staff have been having since November of 2022 regarding the Neighborhood & Development Services agreement. To date, those meetings have gone down different paths with the group trying to work towards a process that better meets the goals of both organizations.

Matthew C. Allen City Manager

We have talked through some technical changes to the agreement (i.e., reporting requirements, septic tank inspections, and updated references to codes). However, the bulk of the recent discussions have been centered around the process and opportunities for improvement as we move forward.

For example, City and County staff left the June 30, 2023, meeting with a shared understanding that both organizations wanted to move in the direction of a consultant-type relationship with City staff providing recommendations to County staff instead of directly to the Planning Commission or Board of County Commissioners. This provided additional flexibility that had been requested by County staff but kept clear lines of roles/responsibilities that has been the focus of City staff. City and County staff left this meeting with direction that the City would draft a written agreement to this effect for consideration by both Governing Bodies later in 2023 for the upcoming year.

That direction pivoted at the August 9, 2023, meeting. In that meeting, you shared that the desire of the County shifted back to addressing some of the technical items that had been discussed previously but not addressing the more systematic changes for 2024. Additionally, you requested having a better understanding of the development process that the City of Garden City uses before we enter into any additional discussions about more robust changes to the Neighborhood & Development Services agreement for 2025.

While I believe your request is to have a flow-chart that outlines how all projects move through the development process, I am not sure what we have provided in Attachment A yields the desired results. There are too many variables tied to the specific details of each

major project for them to fit in a one-size-fits-all process. As a result, we have provided a very generalized flow-chart but that unfortunately omits a significant amount of detail and nuance tied to every project.

To help get to what I believe the intent of the request is, I have provided you with the philosophy that we use for large-scale developments. As well as some of that nuance that we look for at each step of the process we've identified. I believe this memo paired with the flow chart provides you with the information you have requested to continue our discussions.

I have also included our turnaround times that are tied to the more routine portions of the process. We approach development projects as adaptive in nature and modify our approach based on the specific needs identified while recognizing that there are several technical processes that are required once we get to a certain phase of the project.

Much of what is outlined below was shared at the City Commission pre-meeting on August 15, 2023. We invited you to that meeting as we were giving an update about the agreement to our Govering Body, but we also took that opportunity to discuss our development process more generally and we thought we could all benefit from having that discussion as a larger group. Regardless, we wanted to provide a high-level overview of development from the perspective of the City of Garden City.

Projects Requesting Development Incentives

We broke out the process into two general categories. First, are projects that are requesting significant economic development incentives (i.e., tax increment financing, community improvement district, sales tax and revenue bonds, neighborhood revitalization program, and/or industrial revenue bonds). Second, are Rural Housing Incentive District projects and all other development (or re-development) projects. It should be noted that this is a generalized process, each project is unique and has different set of variables that dictate the speed and areas of focus for that particular project.

Step 1: Kick-off Meeting. We typically become aware of large development projects through Finney County Economic Development Corporation or through a developer reaching out directly to staff. Once we receive a request to meet, we will set up a kick-off meeting that typically includes City Manager Allen, Assistant City Manager Burke, Finney County Economic Development Corporation, and the developer. In this meeting we aim to get an understanding of the project the developer is interested in bringing to Garden City.

From a staff perspective we are trying to understand if they have land identified and if yes where, what their anticipated gap is, what assumptions they are using in that analysis, what incentives are being requested, what incentives they have used on other similar projects, etc. In that initial meeting, we will also share what our approach to development is and what economic development tools have been used historically. When talking about our approach we typically hit on the following topics:

- We will work towards getting to yes (or at least sharing what the path looks like to get to yes and who has the authority to make that decision);
- Interest based negotiations;
- Preserve at least one revenue source for the General Fund; and
- Talk through the process and how quickly that particular project can move through the process.

We typically leave these meetings with some follow-up items to bring back to the following meeting if both parties are still interested in moving forward.

<u>Step 2: Bond Counsel.</u> After the kick-off meeting, staff will reach out to our bond counsel to discuss the potential project and the incentive tools that may be tied to the project. This helps ensure that all parties are aware of the project and to make sure that the project being discussed can use the tools that are being considered.

<u>Step 3: Follow-up Meeting(s).</u> This is the point in the process that we start to get more subject matter experts involved in the discussions. Typically, these meetings are held after a potential site is known, or if multiple sites are being considered to discuss site specific considerations. The types of things we discuss include, but are not limited to:

- Zoning considerations (i.e., re-zoning, platting, re-platting, if applicable)
 - This includes possible waiver requests, conditional use permits, planned unit developments, planned commercial developments, amendments, etc.
- Traffic impact study requirements
- Utility locations and considerations (i.e., sizing, metering requests, system improvements, long-lead time items, costs for improvements, etc.)
- Sidewalks/trails
- Fire access and sprinkler system requirements
- Parking
- Landscaping/Public Art
- Memorandum of Understanding/Development Agreement
- Next steps related to incentives and the project.

These meetings typically have a few more staff members present to be able to speak to some of the specific items listed above. We also may invite the mayor or an elected official to this meeting if the project is anticipated to move forward. Staff will drop just about everything to make these meetings happen quickly and to ensure that we are able to keep the project moving forward.

Again, leaving this meeting there are typically takeaways for both staff and the developers to bring back to the next meeting. From here the process depend significantly on the project and what items are most critical for the project to move forward. Staff will try to move as many elements forward at the same time as possible and move as quickly as the developer would like to go based on our stated turnaround times and noticing requirements.

As City staff we invest a significant amount of time and resources to help ensure that projects move forward in a timely manner. This includes not only City staff, but also our external partners that play a role in the process as well (i.e., Contract Engineers, Bond Counsel, City Attorney, etc.). We view this as a large team working together to help meet the identified goals of our Governing Body and place a high priority on meeting those stated objectives.

Step 4: Action Item(s) to Govering Body. After some of the details of the project are reached and the project is to a point that a Memorandum of Understanding or Development Agreement can be drafted, that will be taken to the Governing Body for consideration. This is the first point that the entire Governing Body is made aware of the proposed project and the incentives being requested to move the project forward. The City's Bond Counsel works with the developer's legal counsel to get these items finalized.

Step 5: Identified Next Steps. From here, staff and the development team will begin to implement the items outlined in the adopted Memorandum of Understanding or Development Agreement and items will start to go through the more standardized processes that are in place. For example, incentive tools identified will begin to go through the required processes, applications for rezoning are submitted, site plans are completed, Internal Staff Review meetings held, etc. More or less, at this point in the project it enters into Step 1 or Step 2 listed below and follows our typical processes.

Projects Requesting RHID Incentives or No Incentives

Step 1: Internal Staff Review (if requested). For all projects, regardless of size, there is an ability of the property owner/applicant to request Internal Staff Review meetings. This is an opportunity to do something very similar to step 3 above and provides an opportunity for the applicant to talk directly with staff about the project they are proposing. Often, the applicant will bring their design professional and/or engineers to this meeting so that specific questions can be asked, and clarity can be provided before a formal site plan is submitted. These meetings are not required for any project but rather offered as a heightened level of service for projects interested in taking advantage of it.

The City departments that attend ISR meetings include (but may not be limited to): Fire Department, Neighborhood & Development Services, Engineering, Public Works, Water Department, Electric Department, and Parks & Recreation. The City Manager's Office is not typically involved in these meeting.

The scope of these meetings can vary significantly depending on the project. Some applicants request the meeting because it is the first time going through the process and they want some additional guidance on the front end, some are for applicants that have several ideas and want to know what would be required for each idea, and others are for larger projects with a full development team that want to get clarity on specific portions of our zoning regulations. Additionally, as projects are modified and change, the applicant can request additional ISR meetings.

Step 2a: Site Plan Submittal (and resubmittal, if needed). For projects not requesting to have an ISR meeting, our first interaction with it is likely through a site plan submittal. Site plans are sent out every Friday via email to City and County staff, all utility companies that operate within Finney County, Chamber of Commerce, Kansas Department of Transportation, and United States Postal Service for Garden City. All agencies on the distribution list, receive all site plan submittals regardless of location. For City projects, we get comments back to the applicant within 10 business days for the first submittal and 5 business days for each submittal thereafter.

There are some instances in which we provide a comment that additional discussion is going to be required for a certain component of the site plan so that we can still get it turned around and keep the process moving but recognize that we need to find a time to meet to discuss that particular item. This allows the applicant to work on all the other comments provided on the site plan instead of holding up the entire process to get one questions answered.

<u>Step 2b: Rezoning (if needed).</u> Some projects require the property to be rezoned. This process can be initiated at any point and may come shortly after an ISR meeting, but it is required to

be completed before the site plan is officially approved. For projects that do not utilize the ISR meetings but still require rezoning, that comment will be provided in the site plan comments. This process typically takes 45-60 days depending on calendaring to ensure that appropriate noticing requirements are met.

Step 2c: Platting (if needed). Some projects require the property to be platted (or re-platted). This process can be initiated at any point and may come shortly after an ISR meeting, but it is required to be completed before the site plan is officially approved. For projects that do not utilize the ISR meetings but still require platting (or re-platting), that comment will be provided in the site plan comments. This process typically takes 45-60 days depending on calendaring to ensure that appropriate noticing requirements are met.

<u>Step 3: Permits.</u> After the project has an approved site plan, the applicant may begin to pull permits and start work on the site. Staff will have comments or issue the permit within 5 business days of submittal.

<u>Step 4: Inspections.</u> As the project progresses and inspections are required, we ask for 24-hour notice to get those inspections scheduled. However, if there is a desire and ability to do those quicker than that, we will do our best to accommodate those requests.

Step 5: Certificate of Occupancy (or Temporary Certificate of Occupancy). After a project has passed all inspections a Certificate of Occupancy is issued, and the project is considered completed. There are instances in which a Temporary Certificate of Occupancy is issued. This occurs when a few final items need to be completed but they don't pose a risk to the business becoming operational in the short term. This is often used with landscaping requirements so that applicants can plant the appropriate trees, shrubs, and plants at a point in the year they are likely to survive but still able to operate their business in the meantime.

Step 6: Tracking and Reporting. For projects that utilize incentives, there is a period of time that the project must be tracked. Additionally, there is administrative work required to verify the costs tied to the incentive that was requested and setting up processes for payment of those incentives overtime. The terms of this are included in a Development Agreement between the City and the developer.

I hope this helps better articulates the development process and the philosophy in which we approach development. I look forward to continuing to discuss how we can continue to partner to make development a smooth process for those interested in investing in Garden City and Finney County. I know we have opportunities to improve the process and develop something that works for all stakeholders better than what we have been doing for the past few years.

Sincerely,

MEMORANDUM

TO: Governing Body

THRU: Matthew C. Allen, City Manager **FROM:** Daunte Thompson, Planner

DATE: February 6, 2024

RE: DDF24-01 Downtown Development Fund Application - 325 North Main Street

ISSUE:

The Governing Body is asked to consider and approve the distribution of the Downtown Development Funds for 325 North Main Street.

BACKGROUND:

Donny Huber has applied to the Downtown Development Fund (DDF) for an interior remodel located at 325 N. Main Street. The unit is currently vacant but will be the future location of Classy Looks. After completing the building plan review process, a building permit was issued on January 3, 2024. Staff determined the eligible work includes demolition, professional fees, and general remodeling in order to accommodate a retailer in the unit. The total costs for the eligible work are estimated to be \$115,788. Based on the project scope and design plans submitted, Staff concluded a score of five points. The project was awarded four points for allowing a new retail business and another point awarded for potentially drawing in customers from the surrounding area. A score of five points calculates a potential reimbursement of 10% of the eligible project costs, or \$11,578. All application materials, including the reimbursement score sheet, are attached.

This is the first Downtown Development Fund application of 2024. The Downtown Development Fund has a current balance of \$200,000. Based on the potential reimbursement score determined by Staff, approving the DDF application will leave a remaining balance of \$188,422. The proposed retail use conforms with the Garden City Comprehensive Plan, Downtown Plan and the Zoning Regulations.

ALTERNATIVES:

- 1. The Governing Body may fund the award at \$11,578.
- 2. The Governing Body may fund the award at a different amount.
- 3. The Governing Body may not fund the award of the Downtown Development Fund Application.

RECOMMENDATION:

Staff recommends the Governing Body fund the award at \$11,578.

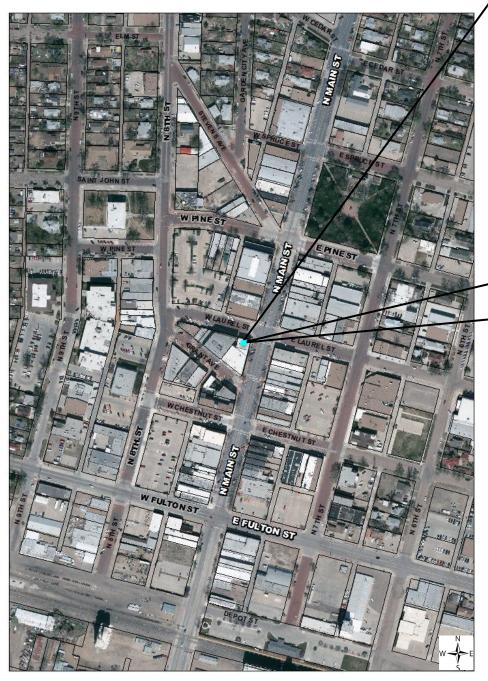

FISCAL NOTE:

The Downtown Development Fund has a current balance of \$200,000. Based on the potential reimbursement score determined by Staff, approving the DDF application will leave a remaining balance of \$188,422.

MEMORANDUM

TO: Governing Body

THRU: Matthew C. Allen, City Manager

FROM: Fred Jones, Water Resource Manager

DATE: February 6, 2024

RE: Engineering Services Agreement - Wastewater Treatment Plant Ultraviolet

Disinfection System Improvements

ISSUE:

The Governing Body is asked to consider and approve Work Order No. 24-01 from Professional Engineering Consultants, P.A. (PEC) for engineering services to replace the Ultra-Violet (UV) Disinfection System at the Wastewater Treatment Plant (WWTP) for a fee of \$76,000.00.

BACKGROUND:

In preparation for the 2024 City Budget, staff identified the replacement of the UV Disinfection System at the WWTP as a needed improvement to improve the reliability of plant operations. The system has been in continuous use at the plant since the UV Building was constructed in the year 2000.

The UV System is a critical component of the WWTP and is the final treatment step in the current configuration of the WWTP. The UV Disinfection System uses a series of very powerful ultra-violet lights to provide a final disinfection step as water is discharged to the environment or diverted for water reuse purposes. Since the treated effluent is potentially released to the Arkansas River, UV is a preferred disinfection method because it does not require chemicals or pose a hazard to aquatic life.

The work order presented for consideration today will be the design for the new system, permitting the design with the Kansas Department of Health and Environment, a transition plan for the construction of the new system, structural analysis, electrical design for the equipment, bidding services, and construction administration.

ALTERNATIVES:

- 1. The Governing Body may approve the work order for engineering services to replace the UV Disinfection System at the WWTP for a fee of \$76,000.00.
- 2. The Governing Body may not approve the work order from PEC for engineering services to replace the UV Disinfection System at the WWTP.
- 3. The Governing Body may direct staff to provide an alternate solution for consideration.

RECOMMENDATION:

Staff recommends that the Governing Body approve the work order for engineering services for the Polymer Feed System replacement at the WWTP submitted by PEC for a fee of \$76,000.00.

FISCAL NOTE:

If approved, this project will be funded from GL Code 52153515-5331 (Engineering Fees). The project was budgeted for 2024. The budget authority in the Engineering Fees line item is \$250,000.00.

RE: Engineering Services Agreement - Polymer Feed System Improvements at the

Wastewater Treatment Plant

ISSUE:

The Governing Body is asked to consider and approve Work Order No. 24-02 from Professional Engineering Consultants, P.A. (PEC) for engineering services to replace the Polymer Feed System at the Wastewater Treatment Plant (WWTP) for a fee of \$62,300.00.

BACKGROUND:

In preparation for the 2024 City Budget, staff identified the replacement of the Polymer Feed system at the WWTP as a needed improvement to improve the reliability of plant operations. The system has been in continuous use at the plant since the solids building was constructed in the year 2000.

The Polymer Feed System is used to inject a polymer into the solids materials that are removed from the wastewater. This process binds solids together so that the maximum amount of water can be removed from the solids. The solids removed from the treatment process are stored on a drying bed at the WWTP for land application on crops used for non-human consumption.

The work order presented for consideration today will be the design for the new system, permitting the design with the Kansas Department of Health and Environment, a transition plan for the construction of the new system, structural analysis, electrical design for the equipment, bidding services, and construction administration.

ALTERNATIVES:

- 1. The Governing Body may approve the work order for engineering services for the Polymer Feed System replacement at the WWTP submitted by PEC for a fee of \$62,300.00.
- 2. The Governing Body may not approve the work order for engineering services for the Polymer Feed System replacement at the WWTP submitted by PEC.
- 3. The Governing Body may direct staff to provide an alternate solution for consideration.

THRU: Matthew C. Allen, City Manager **FROM:** Kristi Newland, Zoo Director

RE: Snow Removal Equipment Bids - Airport & Zoo - 2024

ISSUE:

The Governing Body is asked to consider and approve the purchase of snow removal equipment for Lee Richardson Zoo and the Garden City Regional Airport from Professional Turf Products for a total cost of \$128,283.92.

BACKGROUND:

Snow removal equipment for the Zoo was proposed and approved in the 2024 budget. The Zoo was preparing to send out bid documents following the formal bid/long process per the City of Garden City's Financial Management Guidelines when the Airport asked to join in as similar equipment was also approved in their budget.

The example of equipment proposed was a Ventrac SSV or similar model with a 38" broom, blade, and snow blower attachments. This will supplement current snow removal equipment at the Zoo (skid steer, tractor, Polaris, shovels, snow blower). The skid steer and tractor can only be used on the roads. The Polaris (with a blade) will only fit down straight sidewalks that are 6 feet or wider. The snow blower currently at the Zoo will not move snow if it has much moisture content. With the current equipment, Zoo staff often end up removing 70% of the snow on the walkways manually.

The proposed purchase will increase efficiency by cutting the time it takes Zoo staff to clear sidewalks in half and reduce the chances of time off related to back injuries by reducing the need to manually shovel the snow or walk behind a snow blower for six to eight hours. This equipment can also be used on the decorative brick areas which in the past had to be cleared by hand shoveling to avoid chipping and scratching the brick. It will fit anywhere in the Zoo. The broom, blade, and snow blower attachments ensure that no matter the snow conditions, staff will be able to remove it effectively.

The Airport has similar issues when it comes to clearing sidewalks and brick areas.

One bid was received from Professional Turf Products with a cost of \$41,094.64 per unit. The bid meets all requirements and falls within budgeted funds.

ALTERNATIVES:

1. The Governing Body can approve the purchase of the snow removal equipment proposed from Professional Turf Products for a total cost of \$128,283.92 (2 units for the Zoo and 1 unit for the Airport at a cost of \$41,094.64 per unit).

2. The Governing Body can deny the purchase of the snow removal equipment proposed.

RECOMMENDATION:

Staff recommends the approval of the purchase of the snow removal equipment proposed.

FISCAL NOTE:

The Zoo has approved funds in GL 10033103-6520 Zoo Maintenance New Equipment-Other to purchase two units (\$82,189.28). The Airport has approved funds in GL 56161100-6520 Airport New Equipment-Other to purchase on unit (\$41,094.64).
